Pigmentation Facial

Our pigmentation facial has been designed to help with uneven skin tone caused by hyperpigmentation, sun spots and freckles. It will smooth and hydrate your skin.

1 Double deep cleanse with Cleanse.

2 Apply Replenishg Serum to re-hydrate the skin.

3 Apply Brighten.

4 Apply Advanced Anti Redness Illuminating Elixir to areas of concern.

5 Apply 1 pump of Intensive Eye Cream below each eye and massage around the eye area, paying attention to “eye bags” and crow’s feet.

6 Apply 2-3 pumps of SPF 50 to entire face and massage.
